Introduction to Spanish
Large Motor Skill Development
Introduction to Computer

PURPOSE AND GOALS

The purpose of the preschool is to aid in the child’s spiritual, mental, social, emotional, and physical development. To accomplish this, our goals are:

1. to teach the child about God and his plan of salvation
2. to acquaint the child with letter and number concepts
3. to develop the use of language
4. to encourage creativity through art and music
5. to foster cooperation and respect for others through social learning experiences
6. to aid in exploring the environment through indoor and outdoor play.

We provide both enrichment experiences to foster self-confidence, and new experiences which allow the child to question, seek, and explore. The program strives to teach independence, responsibility, cooperation, and self-awareness within the framework of Christian teaching.

ELIGIBILITY

Children three years of age (by September 1) up to Kindergarten are eligible. Priority is given to children from our congregation. **Children must be toilet trained to attend.**

SESSIONS

3 year-old session (T-TH morning)
